REVIEW OF MARKETS FINANCIAL AND COMMERCIAL

16

Stocks, Money, Exchange, Boids, Grain, Cotton, Provisions, Etc.

Cotton, Provisions, Etc.

New York, Feb. 18.—The net changes in stock prices for the day were integular, with slight fractional advances predominating, although in pome important stocks the advance was considerable. The dealings were very large for a Saturday short session, almost 700,000 shares being traded in. London was early a seller and later repurchased about half of this amount. A more confident sentiment regarding the situation at Paris accompanied the election of a new Prosident of France. Houses with Washington and Chicago connections appeared as liberat purchasers and the selling was scattered.

The standard shares were generally strong, while the feature of the markewas the sensational advances of almost 20. The dealings in this stock were of a very sensational character, the variations between sales running either way from 1 to 4 noints. The movement was generally considered as directed against the short interests. Various reports were current of absorption or friendly relations being established with the commany's most conspicuous rival, but these stories were denied in other quarters. The market became irregular after the opening exhibition of strength, realizing sales being offset by confident buying in others. Burlington was jammed down 2 points and the other Grangers and railroads, which have been strong, crumbled. Meanwhile, Manhattan, which broke 3 points on the order for the removal of the elevated structure in Battery Park, recovered most of its early loss. It was the aggressive strength of Tobacco which steadied the rest of the industrials, including Sugar. Metropolitan Street Railway and Third Avenue displayed considerable strength and increase in loans, brought about considerable realizing, but covering of shorts lifted prices again to some oxident lifted prices again to som

strong.

The week's bond market furnished a number of features, including a revival of activity in the Central of Georgia issues, which ordinarily are dull. The market generally displayed an advancing tendency with a considerable increase in activity toward the end.

end.
United States new 4's and the 3's de-clined 1/4c, and the old 4's, registered, and the 5's, coupen, 1/4c, in the bid price. The total sales of stocks to-day were 678,300 shares.
